- Wireless Sub Woofer

TV Sound Bar with Wireless Sub Woofer

The Steljes Audio Erato TV Sound Bar and wireless subwoofer is a sensible and well-engineered solution to the problems associated with the poor audio performance of today's flat panel TVs.

A comprehensive suite of connectivity allows for numerous sources to be connected to the Erato, via either HDMI (2 inputs and 1 output with ARC), Optical Digital, Analogue or streaming direct via Bluetooth aptX.

Fitted with 2 High Frequency Drivers, 2 Mid Range and 1 Bass Driver (located in the subwoofer) the Erato will adeptly handle music and movie tracks with consummate ease.

There are also 3 DSP settings, (MOVIE, MUSIC, VOICE), so that you can get the best performance possible regardless of programme material.

Conveniently supplied with wall fixings, the choice of placement is all yours, desktop or wall; it's all in the box, along with cables and a remote control.

Beautifully engineered & designed in Great Britain
